

Additional product

Triflex Release Agent

Product information

Applications

Triflex Release Agent can be applied to tools and machine parts as well as wooden and metal templates. It is used to bring about a quicker and more effective removal of adherent marking materials. The material can be easily removed using mechanical means even after hardening.

Properties

Solvent-based release agent with wax base for PMMA and EP resins. Triflex Release Agent is characterised by the following quality features:

- Fast-drying
- Good release effect
- Easy to remove
- Very economical
- Prolongs service life of tools / machines

Pack size

Canister

5.00 litres Triflex Release Agent

Colours

Transparent

Storage

Can be stored unopened and unmixed for approx. 12 months in a cool, dry place above freezing. Keep the container out of direct sunlight, even on the construction site.

Conditions for use

The material must be brought to room temperature and shaken before application.

Methods of application

Triflex Release Agent is liquid and can be applied with a brush or with the aid of a simple spray bottle. If necessary, the release agent can be thickened using Triflex Powder Thixo.

Material consumption

Density approx. 0.77 g/cm³

Approx. 20 g/m² on a smooth, even surface

Drying time

Can be used after: approx. 2 mins. at +20 °C

Notes on special hazards

See Safety Data Sheet, section 2

Safety tips

See Safety Data Sheet, sections 7 and 8

Measures in case of fire or accidents

See Safety Data Sheet, sections 4, 5 and 6

General notes

We guarantee the consistently high quality of our products. Non-Triflex products must not be used with Triflex systems.

The advice we give in relation to the application of our products is based on extensive development and many years of experience, and is correct to the best of our knowledge. Given the multitude of on-site requirements, under the most varied of conditions, the user is required to test the product's suitability for its respective purpose. Technical information is subject to change without notice in the interests of technical advancement or enhancement of our products.
